THAPAR INSTITUTE OF ENGINEERING & TECHNOLOGY (TIET), PATIALA

Thapar Journey Connect & City Communities

A campus-exclusive web platform connecting TIET hostellers with hometown peers and compatible travel partners for safe, affordable cab and train sharing.

Verified Student Access

Smart Journey Matching

Affordable Group Travel

STUDENT VERIFICATION & SECURITY

Student Verification & Travel Safety

Real Student Problem at TIET Patiala:

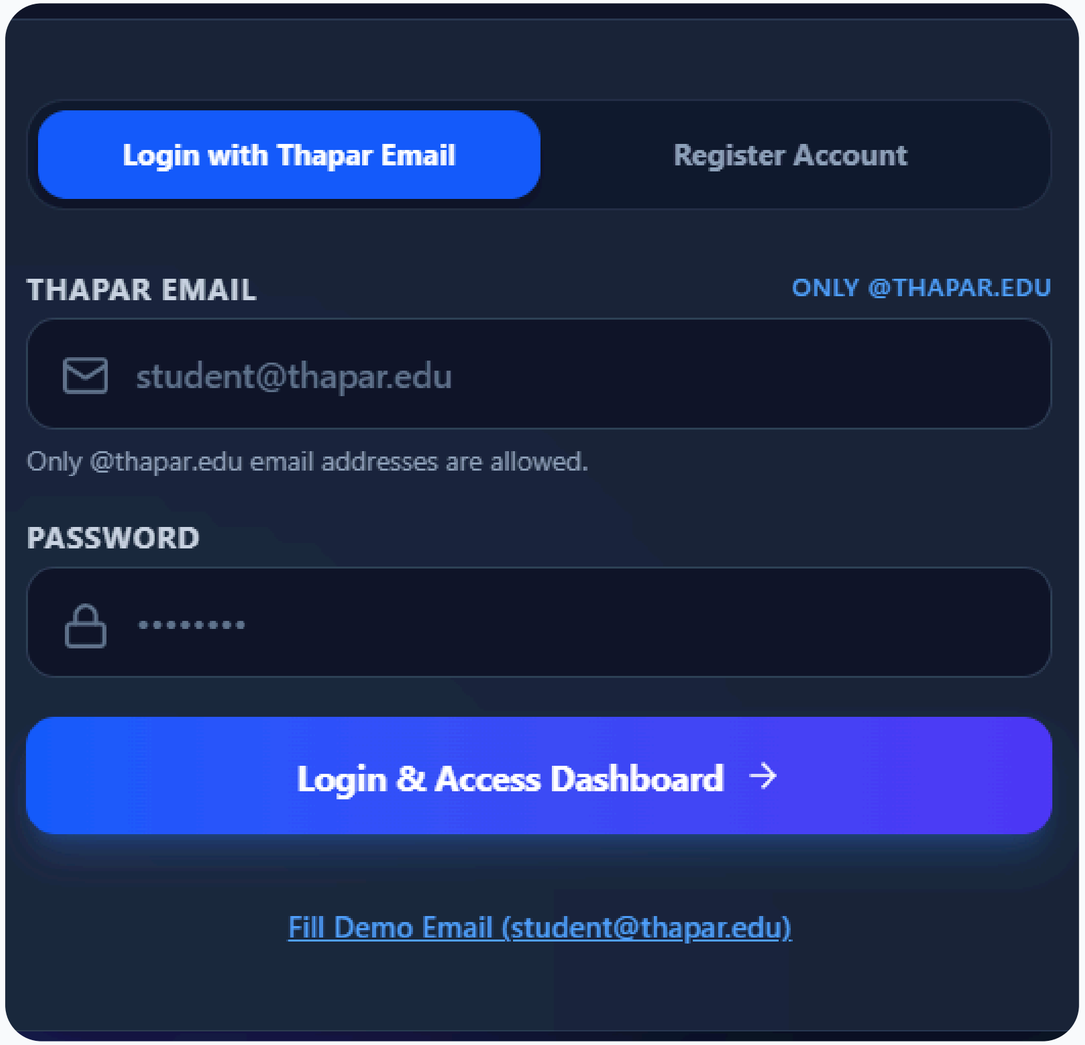

Over 8,000+ hostellers commute each weekend to Patiala Railway Station, Bus Stand, and Chandigarh/Delhi Airports. Uncoordinated travel leads to high cab costs (₹1,500+ for airports) and safety concerns on unverified social channels.

Institutional Domain Restriction:

The platform strictly enforces official "@thapar.edu" student email authentication with password & student session verification, blocking outside strangers.

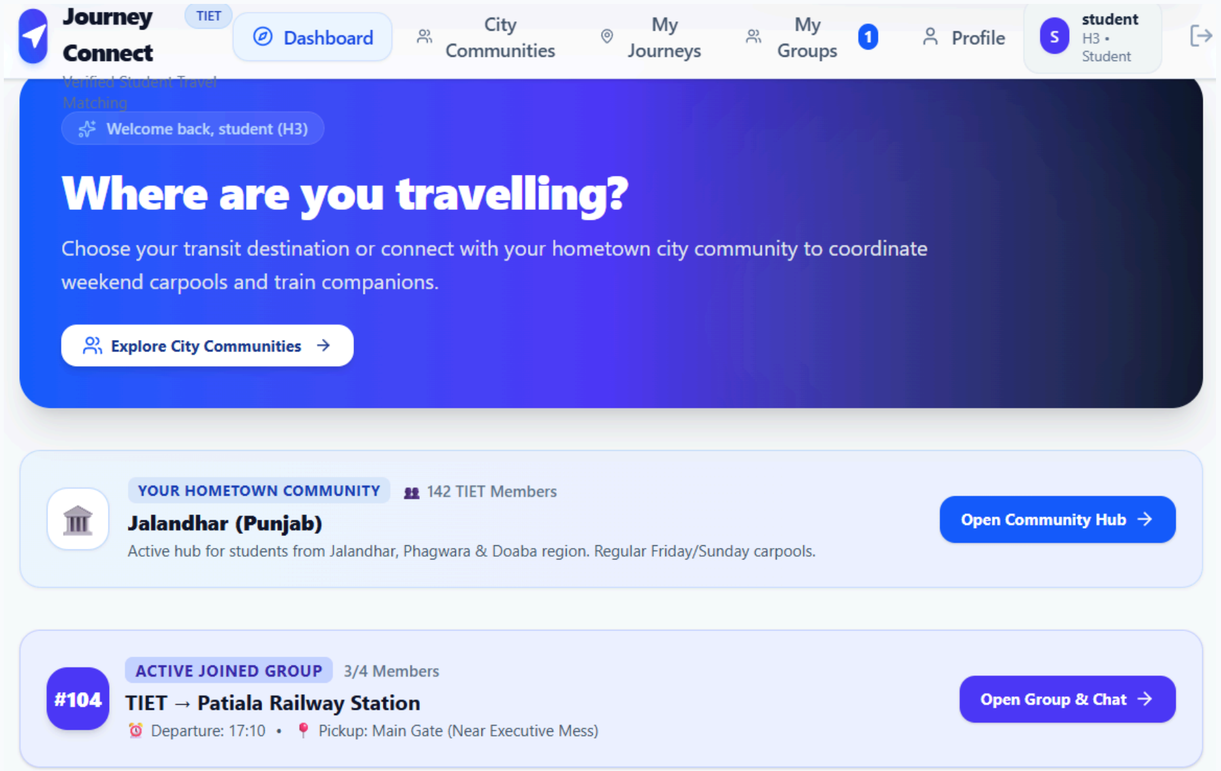

Hostel Proximity Integration:

Every student profile tracks academic program, current hostel (A TO D, PG), and emergency contact phone number.

CORE STUDENT PORTAL

Student Dashboard & 4 Core Transit Hubs

Patiala Railway Station

📍 **8.5 km from Main Gate** | 💰 **₹150 - ₹200 cab / auto**

Peak Friday & Sunday evening trains (Shatabdi & Intercity).

Patiala Bus Stand

📍 **6.2 km from Main Gate** | 💰 **₹120 - ₹160 cab / auto**

Morning & evening PRTC Volvo & direct state buses.

Chandigarh Airport (IXC)

📍 **62 km via Zirakpur** | 💰 **₹1,200 - ₹1,500 cab**

Huge savings: 3-4 students split cab fare down to ₹350/person.

Delhi IGI Airport (DEL)

📍 **250 km via NH44** | 💰 **₹4,500 - ₹5,500 total**

Overnight cab carpools and holiday vacation departure groups.

HOMETOWN NETWORKING & COHORTS

City Communities & Discussion Notice Board

Regional City Hubs:

Dedicated communities for major student origins: Jalandhar (142 members), Delhi NCR (310 members), Ludhiana (185 members), Chandigarh & Tri-City (240 members), Amritsar, Bathinda & Jaipur.

Single-Community Rule:

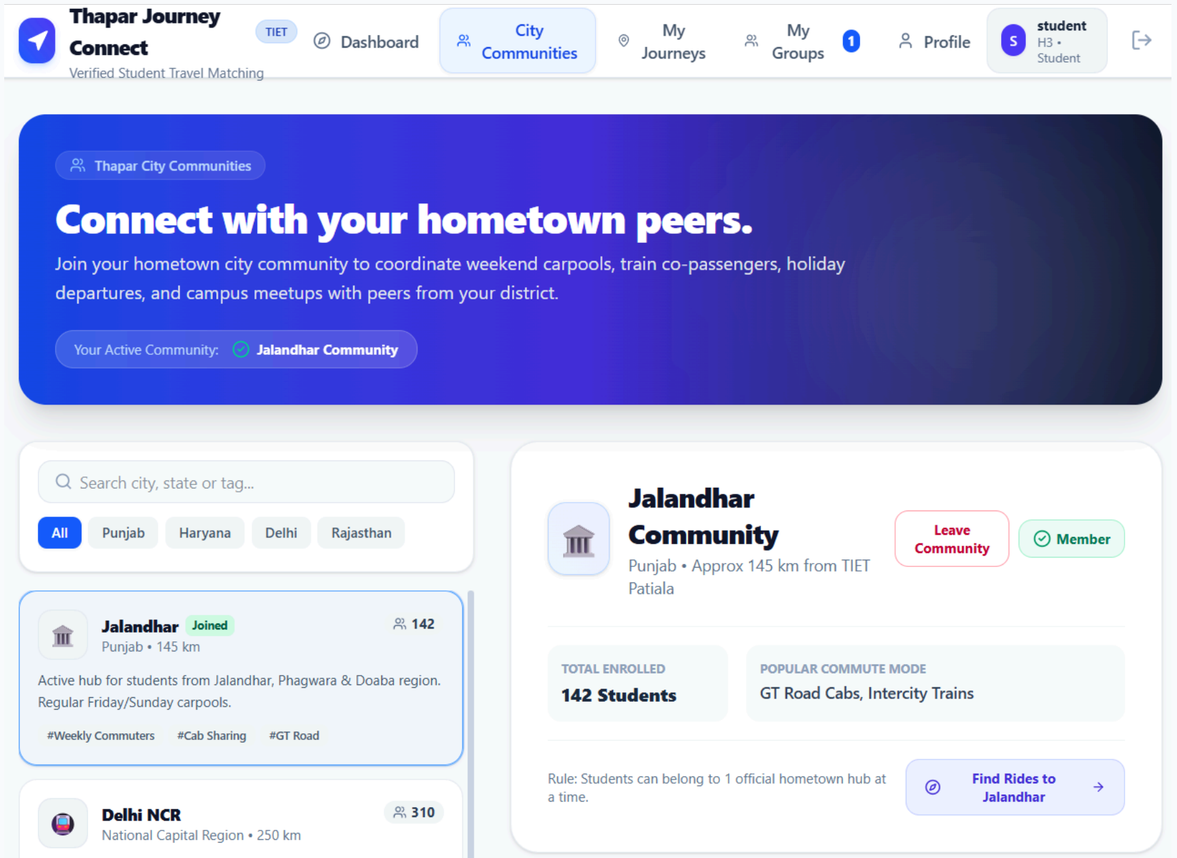

Enforces the business logic that a student can belong to only one official hometown hub at a time, preventing spam and keeping local networks genuine.

Ride Sharing Notice Board:

Hostellers can post ride-sharing notices (e.g. "Ertiga to Jalandhar Cantt Friday 5 PM - 2 seats open") specifying pickup gate, cost split, and travel tips.

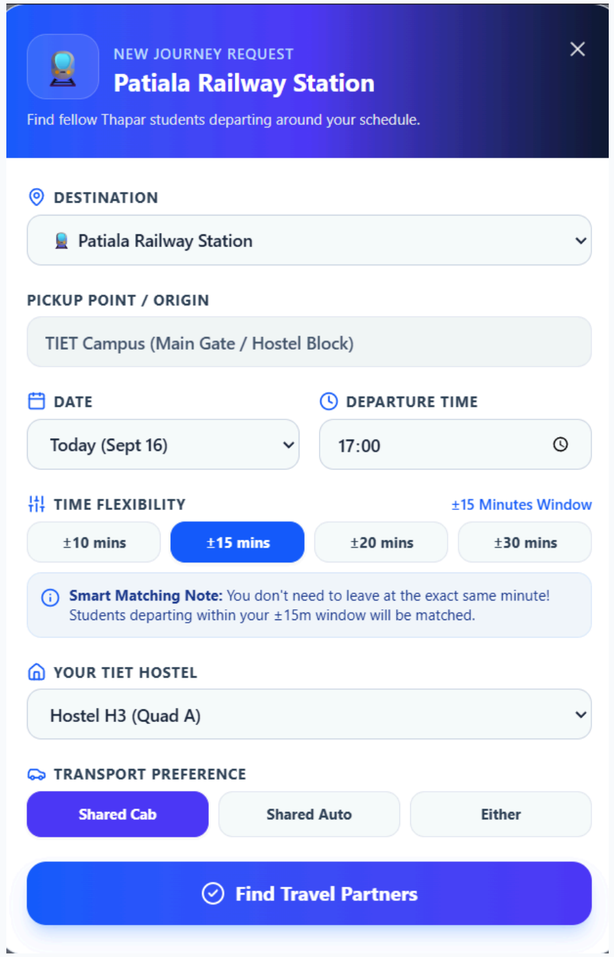

One-Click Hometown Matching:

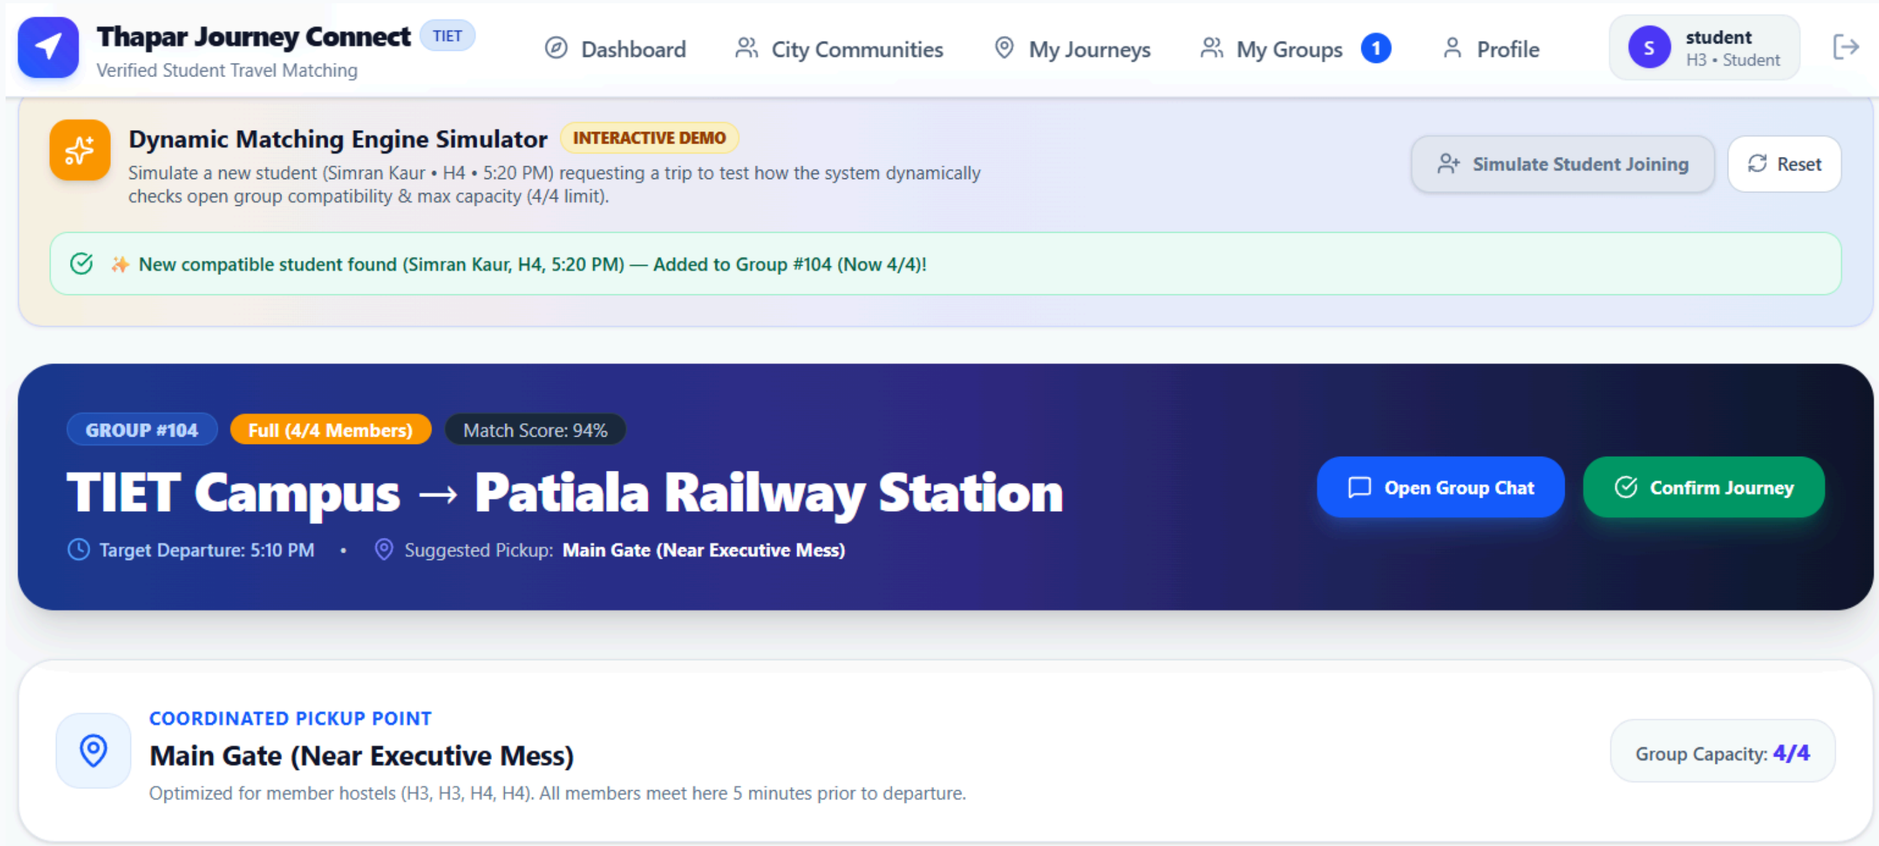

A direct "Find Rides to City" action links community members straight into the journey matching algorithm pre-configured for their hometown.

INTELLIGENT ALGORITHM

Journey Parameter Inputs & Smart Match Ranking

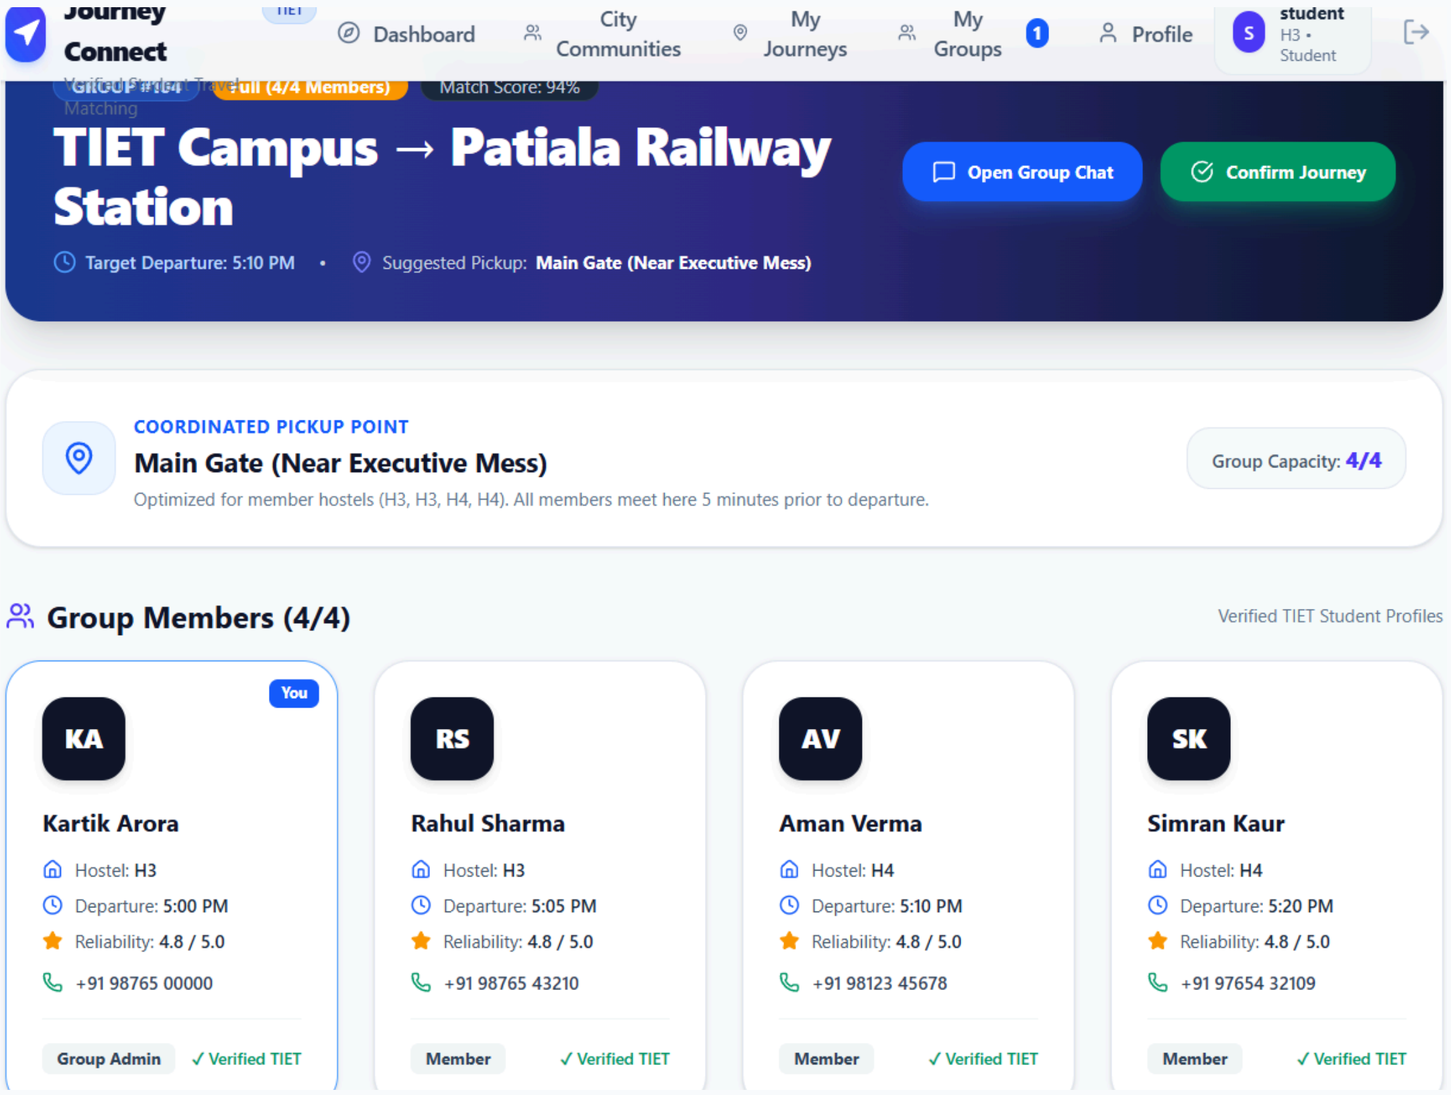

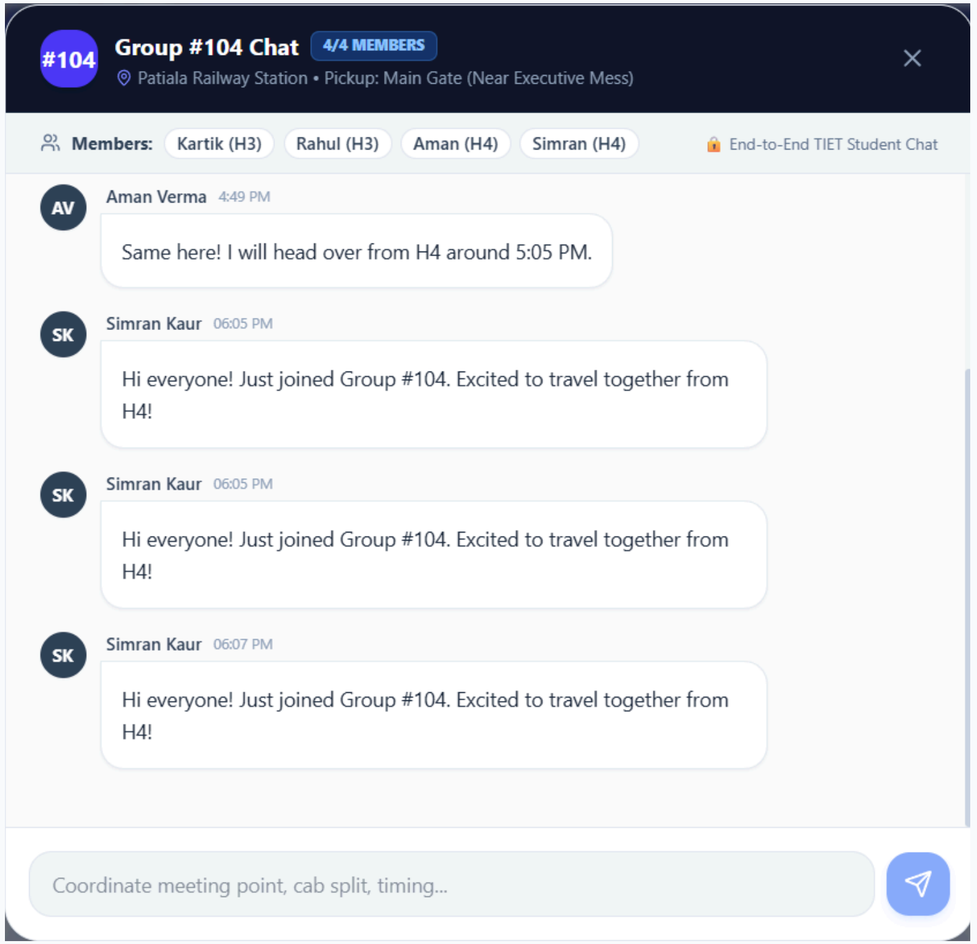

Algorithm Formula: Match Score = (Time Overlap Weight: 45%) + (Hostel Proximity Cluster: 30%) + (Transport Mode: 15%) + (Student Reliability Score: 10%)

COLLABORATIVE TRAVEL

Group Formation, Member Capping & Real-Time Chat

IMPACT & PROJECT ROADMAP

Campus Value Delivery & Future Scope

Student Cost Savings

60% - 75% Reduction

Chandigarh Airport cab drops from ₹1,400 to ~₹350/student. Station autos drop to ₹50/student, saving lakhs collectively per semester.

Campus Safety & Verification

100% TIET Verified

Eliminates travel with unknown strangers from outside platforms. Reliable reviews and peer hostel accountability.

Hometown Social Cohesion

8 Regional Hubs

Fosters hometown peer camaraderie across batches, making hostel life warmer for first-year and senior students alike.

TECHNICAL STACK & FUTURE ROADMAP (PHASE 2)

- Frontend Stack: React 19, Vite 8, Tailwind CSS 4, Lucide React Icons.
- Planned Backend: Node.js / Express REST API, MongoDB / PostgreSQL for persistent user & trip storage.
- Production Enhancements: WebSockets / Socket.io for live chat updates, TIET Student Portal OAuth SSO, and Push Notifications.
